

Vermont Health Care Innovation Project Workforce Work Group Meeting Minutes

Pending Work Group Approval

Date of meeting: Wednesday, April 22, 3:00-5:00pm, 4th Floor Conf Room, Pavilion Building, 109 State Street, Montpelier.

Agenda Item	Discussion	Next Steps
1. Welcome and	Mary Val Palumbo called the meeting to order at 3:03pm. A roll call attendance was taken and a quorum was not	
Introductions	present.	
2. Approval of	Approval of the February minutes was delayed due to lack of a quorum; the Work Group will vote on the	
February Meeting	February meeting minutes at the June Workforce Work Group meeting, assuming a quorum is present.	
Minutes		
3. Updates: Demand	Demand Modeling Update: Amy Coonradt provided an update. The Department of Vermont Health Access	Members will
Modeling; Strategic	(DVHA) has received five bids for the Demand Modeling work; Amy, Charlie MacLean, Mat Barewicz, Jess	receive an
Plan; Workforce-	Mendizabal, and Georgia Maheras are on the bid review team and will receive demonstrations from bidders in	updated version
Related	the next few weeks. Janet Kahn raised a concern: Demand modeling may not include professions that have not	of the Workforce
Initiatives/Grants	historically been part of the health care workforce (for example, acupuncturists). Dawn Philibert noted that Mat	Strategic Plan by
around the State	Barewicz would be better able to speak to this. Amy noted that the scope of work for the Demand Modeling RFP	the end of May,
	includes alternative medicine professions, and many bidders responded to this item.	and will be asked
		to provide input
	Strategic Plan Update: Mary Val provided an update on work to update the Workforce Strategic Plan. A sub-	on the Workforce
	committee to discuss updates to the Strategic Plan has now met three times. It will soon be ready for input from	Strategic Plan for
	the rest of the Work Group; Amy will distribute the revised plan to Work Group members by the end of May.	discussion at the
	Mary Val requested member input on the plan before the June meeting. (The sub-committee will also request	June Workforce
	specific feedback from members with expertise in particular areas.) Amy will compile comments for discussion	Work Group
	and a vote at the June Work Group meeting; after which the approved plan will be presented back to the Green	meeting.
	Mountain Care Board (GMCB).	
	Workforce-Related Initiatives/Grants around the State: Mary Val pushed this topic to Item #7.	

Agenda Item	Discussion	Next Steps
	 undersupply. To look at newer professions, it may be helpful to consider selecting benchmarks to assess penetration. Charlie also looks at providers per population compared to other states; Vermont far exceeds many states in terms of primary care providers per population, for example. Demand analyses could help us decide whether we need more or fewer providers than what we have in various specialties. Mary Val asked whether there are national benchmarks for naturopaths per population, in response to Lori Lee's earlier question. Peter Cobb asked whether we would like to collect demand data about non-licensed professions like direct care workers, personal care assistants, etc. He suggested that those positions have high turnover, 	
5. Review 2015	so can be hard to capture consistent demand, but he will put out a survey in late spring or early summer. Sarah Kinsler introduced the Workforce Work Group Workplan and described the process by which the Workplan	Sarah Kinsler will
Workforce Work	was created.	follow up with
Group Workplan		Georgia on
	The group discussed the following:	funding
	On Row 4, Dawn Philibert suggested that the target date be ongoing.	questions.
	 Madeleine Mongan suggested that on the Strategic Plan item (Row 3), the note about the RFP be removed since we have since decided not to pursue Mary Val Palumbo asked about funding associated with this Work Group. Is funding specifically tied to supply and demand research, as Georgia had suggested at a previous meeting, or is it broader? Could we specifically fund a proposal like Lori Lee's or Peter's, for demand modeling for specific provider types like naturopaths or visiting nurses associations (VNAs)? This group previously had funding proposals that were outside the SIM funding scope. Mary Val suggested that it would be good to get an accounting from Georgia: How much will Demand Modeling work cost, and how much total is available? How much is allocated to support Work Group staff? Peter Cobb asked whether Demand Modeling RFP responses have taken into account private duty nursing. Charlie MacLean noted that the contractor the review team selects can include this information if we give ask them to; Mary Val noted that there will be assumptions that we will verify. Madeleine Mongan noted that some hospitals and other care settings that employ traveling nurses or other providers that might not show up in these models, though supply side data might fill this gap. Madeleine and Charlie suggested we seek more information on the minimum dataset for licensing data. Charlie requested an update on efforts to hear from the Payment Models and Care Models and Care Management (CMCM) Work Groups. This group heard from the CMCM Work Group on their Integrated Communities Care Management Standards and a provider survey. Dawn Philibert noted that this highlights the intersectional nature of the Workforce Work Group's work. Madeleine Mongan suggested that that the group look at the ACO Care Management standards and see whether they are relevant. Beth Tanzman suggested the group wait until the three Learning Collaborative communities have had more 	

time to assess outcomes. Mary Val noted that this group has not presented to other work groups; Lori Lee Schoenbeck and Dawn Philibert suggested that this could be a good step. Mary Val suggested that presenting the Workforce Strategic Plan following approval by GMCB could be a good topic for presentations. Madeleine Mongan agreed. Mary Val noted that all VHCIP Work Group Co-Chairs do meet semi-regularly and that she would connect with other co-chairs at the next meeting. Dawn Philibert introduced Rich McCoy, Chief of Public Health Statistics at VDH. Peggy Brozicevic was unable to participate in today's meeting, so Rich will be providing an overview with Dawn leading discussion. A sample of VDH's reporting format was also distributed. Regulation (OPR) Survey Reports Regulation (OPR) Survey Reports Regulation (OPR) Survey Reports Regulation (OPR) Survey Reports Philibert suggested that this could be a good topic for presentations. Madeleine Mongan agreed. Mary Val noted that all VHCIP Work Group Co-Chairs do meet semi-regularly and that she would connect with Dawn leading discussion. A sample of VDH's reporting format was also distributed. Philibert suggested that this sort be a good topic for presentations. Madeleine Mongan agreed. Mary Val noted the challenges of gethering a full census reporting process. Rich noted the challenges of gathering a full census reporting the 2012 survey due to a change in procedure: specifically, that the relicensing process has moved to an online portal, and requires a great deal of follow up and administrative work. Previously 5 provider types had been surveyed, beginning in the 1990s; now surveying 25+ specialties. This work is supported by coordination with Licensing, but still requires a great deal of manual data entry and follow up. VDH is focused on data quality. One key data element is full-time equivalent (FTE) information – an important piece for policy-making. However, this often requires a significant amount of follow-up. One key data element is full-time	
Phillibert suggested that this could be a good step. Mary Val suggested that presenting the Workforce Strategic Plan following approval by GMCB could be a good topic for presentations. Madeleine Mongan agreed. Mary Val noted that all VHCIP Work Group Co-Chairs do meet semi-regularly and that she would connect with other co-chairs at the next meeting. 6. Presentation/ Discussion: VDH/Office of Profesional Regulation (OPR) Survey Reports Professional Regulation (OPR) Survey Reports Provided an overview of the survey process. Rich noted the challenges of gathering a full census report for the 2012 survey due to a change in procedure: specifically, that the relicensing process has moved to an online portal, and requires a great deal of follow up and administrative work. Previously 5 provider types had been surveyed, beginning in the 1990s; now surveying 25+ specialties. This work is supported by coordination with Licensing, but still requires a great deal of manual data entry and follow up. VDH is focused on data quality. Provided an online portal, and requires a significant amount of follow-up. Provided an online portal, and requires a significant amount of follow-up. Provided an ordinary and the regulation of the challenges of gathering a full census reportance and the survey, though the survey generally defines work hours to include paperwork, reporting, etc. (though not on-call hours). Strategic Plan following approval by GMCB could be a good topic for presentations. Madeleine Mongan agreed. Mary Val noted that all VHCIP Work Group Co-Chairs do meet semi-regularly and that she would connect with other co-chairs at the next meeting. Dawn Philibert introduced Rich McCoy, Chief of Public Health Statistics at VDH. Peggy Brozicevic was unable to participate in today's meeting, so Rich will be providing an overview with Dawn leading discussion. A sample of VDH's reporting format was also distributed. Regulation (OPR) Survey Reports Rich provided an overview of the survey process. Rich noted the challenges of gathering a full census report for the 2012 survey due to a change in procedure: specifically, that the relicensing process has moved to an online portal, and requires a great deal of follow up and administrative work. Previously 5 provider types had been surveyed, beginning in the 1990s; now surveying 25+ specialties. This work is supported by coordination with Licensing, but still requires a great deal of manual data entry and follow up. VDH is focused on data quality. One key data element is full-time equivalent (FTE) information – an important piece for policy-making. However, this often requires a significant amount of follow-up. Lori Lee Schoenbeck asked whether the FTE includes patient time only, or paperwork as well. Rich responded that this isn't made clear in the survey, though the survey generally defines work hours to include paperwork, reporting, etc. (though not on-call hours). Data is reported in two ways: a statistical report, and a report with a summary that highlights changes and other key data points. Data is reported in two ways: a statistical report, and a report with a summary that highlights changes and other key data points.	
agreed. Mary Val noted that all VHCIP Work Group Co-Chairs do meet semi-regularly and that she would connect with other co-chairs at the next meeting. 6. Presentation/ Discussion: VDH/Office of Professional Regulation (OPR) Survey Reports - Rich provided an overview of the survey process. Rich noted the challenges of gathering a full census report for the 2012 survey due to a change in procedure: specifically, that the relicensing process has moved to an online portal, and requires a great deal of follow up and administrative work. Previously 5 provider types had been surveyed, beginning in the 1990s; now surveying 25+ specialties. This work is supported by coordination with Licensing, but still requires a great deal of manual data entry and follow up. VDH is focused on data quality. - One key data element is full-time equivalent (FTE) information – an important piece for policy-making. However, this often requires a significant amount of follow-up. - Lori Lee Schoenbeck asked whether the FTE includes patient time only, or paperwork as well. Rich responded that this isn't made clear in the survey, though the survey generally defines work hours to include paperwork, reporting, etc. (though not on-call hours). - Data is reported in two ways: a statistical report, and a report with a summary that highlights changes and other key data points. - VDH has been behind on their reporting cycle and had hoped to get back on track this summer. Rich will	
connect with other co-chairs at the next meeting. 6. Presentation/ Discussion: VDH/Office of Professional Regulation (OPR) Survey Reports • Rich provided an overview of the survey process. Rich noted the challenges of gathering a full census report for the 2012 survey due to a change in procedure: specifically, that the relicensing process has moved to an online portal, and requires a great deal of follow up and administrative work. Previously 5 provider types had been surveyed, beginning in the 1990s; now surveying 25+ specialties. This work is supported by coordination with Licensing, but still requires a great deal of manual data entry and follow up. VDH is focused on data quality. • One key data element is full-time equivalent (FTE) information – an important piece for policy-making. However, this often requires a significant amount of follow-up. • Lori Lee Schoenbeck asked whether the FTE includes patient time only, or paperwork as well. Rich responded that this isn't made clear in the survey, though the survey generally defines work hours to include paperwork, reporting, etc. (though not on-call hours). • Data is reported in two ways: a statistical report, and a report with a summary that highlights changes and other key data points. • VDH has been behind on their reporting cycle and had hoped to get back on track this summer. Rich will

VDH has been behind on their reporting cycle and had hoped to get back on track this summer. Rich will	
Connect with Peggy to get a timeline to this group.	
The group discussed the following:	
Staff and contractors are struggling to extract data; VDH expects this to be easier going forward.	
Mary Val Palumbo asked whether VDH had considered dropping their desired response rate to 90% or	
lower given the work associated with collecting this information. Charlie MacLean suggests that it would	
be easy to test this by throwing out the last 10% collected and comparing results. Rich responded that for	
some specialties, it is easy to collect the last 10%; for others it's a challenge.	
Rich and Mary Val noted that VDH needs to balance how many resources to put to this task, as well as	
how long to delay reports in order to collect data that is as complete as possible ("census-level"). Rich	
noted that the physician survey is the top priority.	
Lori Lee Schoenbeck suggested the survey include provider capacity and patients currently served as a	
source for demand data. Charlie MacLean thought this was unlikely to come from a survey; the closest is	

Agenda Item	Discussion	Next Steps
	 whether or not providers are accepting more patients. Charlie suggested Vermont's all-payer claims database could provide much of this information but that this would require a great deal of analysis. Mary Val asked whether this group could have a one-pager that summarizes all professions. Madeleine Mongan suggested that this is included in the report's executive summary. Charlie MacLean suggested that interpreting this information could be a good task for this group – VDH's task is descriptive but does not draw out the key lessons. Mary Val suggested this could be a good task for a contractor, in conjunction with review of the literature. This group could inform conclusions or discussion. Burt Wilcke noted that the number of specialty physician assistants has grown remarkably over the past decade; the group discussed possible reasons for this. Dawn Phillibert asked whether there was some benefit to creating summaries of each provider type. Madeleine Mongan noted that much of this information is already in reports. Mary Val suggested that VDH's job is to get this data as soon as possible, and again asked whether 100% response rates are necessary. Dawn asked Rich whether there is a statistically acceptable way to a assess this. Rich suggested that a few rounds of follow-up are important; additional response can be critical in situations where there is low responses rate in a particular county, for example. Mary Val suggested a preliminary report when 80% of responses are in to support quicker reporting and reduce VDH workload. Rich responded that this could work in some situations but will depend on the data. Charlie MacLean suggested that if this is a mandate, providers would complete it; Mary Val suggests licensing boards would need to be involved. Mary Val Palumbo and Dawn Philibert suggested we table this issue for now. 	
7. Other topics: Discussion, Non-SIM Funding Proposals	Status of Workforce-Related Initiatives and Grants around the State: (Moved from Item #3) Mary Val Palumbo suggested that this group continue to regularly discuss workforce-related grants this group has received, submitted or is considering submitting. • Grants funded: • Madeleine Mongan offered to report on this on behalf of Vermont Medical Society Foundation at the next meeting. • Lori Lee Schoenbeck noted that the Blueprint has funded grants to support participating practices who are transferring from one EHR to a new EHR for participating practices; funds can support hiring additional staff to perform data entry/transfer records. • Grants submitted: • Charlie MacLean and Mary Val Palumbo submitted a large grant application to the Health Resources and Services Administration (HRSA) on workforce development within training programs/continuing education activities related to elderly patients. Expect to hear this summer. • Peter Cobb announced that Home Health agencies as a group and VNAs of Vermont have submitted an application for a grant around palliative care for hospice-eligible patients who have	

Agenda Item	Discussion	Next Steps
	not elected hospice. Expect to hear within a few weeks.	
	Possible future grant opportunities:	
	 Mary Val Palumbo noted that the second round of the Future of Nursing State Implementation 	
	Grant is due in June. Two focus areas – academic progression (marketing to encourage nurses to	
	go back to school for a bachelor's degree) and a nurse practitioner residency program within	
	three independent nurse practitioner-led practices in the state. Requires a match of \$75,000;	
	Mary Val requests suggestions about possible sources of match funding.	
8. Public Comment,	No further comments were offered.	
Wrap-Up, Next		
Steps, Future	Next Meeting: June 24, 2015, 3:00-5:00pm, Conference Room 101, Vermont State Colleges, 575 Stone Cutters	
Agenda Topics	Way, Montpelier.
